# Population in custody September 2008 - Key points

# Population in custody

• The population in custody on 30 September 2008 was 83,703, 2 per cent more than a year earlier. The population in prisons was 83,274 in Secure Training Centres (STCs) it was 228, and in Secure Children's Homes (SCHs) it was 201.

## Population in prison

- The male prison population increased by 3 per cent to 78,854 and the female prison population rose very slightly from 4,416 in September 2007 to 4,420 in September 2008.
- The remand population in prison increased by 5 per cent to 13,706 in September 2008 compared to September 2007. Within this total, the untried population increased 5 per cent to 8,884 and the convicted unsentenced population increased 5 per cent, to 4,822.
- Amongst the remand population the largest percentage increases since September 2007 were seen in sexual offences, burglary and violence against the person, up by 14, 11 and 10 per cent respectively. Decreases were seen in motoring, fraud and forgery and drug offences, down by 15, 7 and 3 per cent respectively.
- There were 67,961 sentenced<sup>(1)</sup> prisoners at 30 September 2008, an increase of 2 per cent from a year earlier. The largest proportionate increase since September 2007 was for those serving indeterminate sentences (Life sentences and Indeterminate sentences for Public Protection) which increased by 17 per cent.
- Amongst the sentenced<sup>(1)</sup> prison population fraud and forgery, violence against the
  person and sexual offences saw the largest percentage increases, up by 6, 5 and 4 per
  cent from September 2007. The number of people serving sentences for motoring
  offences saw a decrease since September 2007, down by 13 per cent.
- The adult population in prison was 71,204 at 30 September 2008, an increase of 3 per cent from a year earlier. Over the same time period the young adults saw an increase of 1 per cent to 9,671 and the 15 to 17 year olds saw a decrease of 3 per cent to 2,399.
- The prison population was 113 per cent of the 'In Use CNA' (73,803) at 30 September 2008.
- On 30 September 2008 the foreign national prison population was 11,168. This includes those held under the Immigration Act 1971 (including those in the immigration removal centres Dover, Haslar and Lindholme) as well as those held on remand or serving custodial sentences.
- The largest foreign national population at 30 September 2008 were Jamaican nationals, with a population of 1,110 followed by Nigeria (918), Republic of Ireland (647), Vietnam (486), China (453) and Poland (452).

<sup>(1)</sup> Includes recalls and excludes fine defaulters

### **NOTES**

### Data sources and quality

The data presented in this brief are drawn from the prison administrative IT systems. Although care is taken when processing and analysing the returns, the detail collected is subject to the inaccuracies inherent in any large-scale recording system. While the figures shown have been checked as far as practicable, they should be regarded as approximate and not necessarily accurate to the last whole number shown in the tables. They are fit to be used for purposes of looking at trends and for comparing the relative magnitude of components.

The prison population information has been drawn from two prison sources. The first source is the routine provision by prison establishments of records of the numbers of persons held in custody at the end of each month, broadly subdivided according to age, sex, custody type and sentence length. The records are collated and processed centrally, to produce the main estimates of the end of month population presented. The second source is the electronically held details for individual inmates such as date of birth, sex, religion, ethnic origin, custody type, offence, and reception and discharge dates and, for sentenced prisoners, sentence length. These data are collected on a central computer database and are used to produce the analyses by offence group and individual year of age. They form the basis of detailed population breakdowns, supplementing the aggregates derived from the first source, to which they are scaled for consistency. A new more detailed method of scaling this information was developed in 2004.

Because the detailed population breakdowns have been scaled and also rounded to the nearest whole number, individual components may not sum to the totals.

Information on the population in STCs and SCHs has been supplied by the Youth Justice Board.

All figures are provisional pending publication of the annual Offender Management Caseload Statistics.

### **Definitions**

<u>Population in custody</u> - this includes those held in prison establishments, police cells under Operation Safeguard, secure training centres (STCs) and secure children's homes (SCHs). This is a change to previous outputs (notably Prison Population Monthly Brief and Prison Statistics England and Wales) where the reference to 'population in custody' just covered those held in prison establishments and police cells. All coverage is for England and Wales.

<u>Population in prison</u> – this includes those held in prisons in England and Wales, including the three removal centres of Dover, Haslar and Lindholme.

<u>Sentenced population</u> – this includes those sentenced to an immediate custodial sentence and fine defaulters.

Immediate custodial sentence – this does not include fine defaulters.

Adult prisoners – these are prisoners aged 21 years and over.

<u>Young adults</u> – these are prisoners aged 18 to 20, but including 21 year old prisoners who were aged 20 or under at conviction who have not been reclassified as part of the adult population

<u>Indeterminate sentences</u> – these cover life sentences and indeterminate sentences for public protection (IPP).

Data Sources and Quality
These figures have been drawn from administrative IT systems which, as with any large scale recording system, are subject to possible errors with data entry and processing. See Data Sources and Quality section of report for more information.

<sup>\*</sup> Indicates that one or both of the comparative numbers are less than 50 which could give rise to misleading percentage changes

Data Sources and Quality
These figures have been drawn from administrative IT systems. Care is taken when processing and analysing the returns, but the detail collected is subject to the inaccuracies inherent in any large scale recording system, so although shown to the last individual, the figure may not be accurate to that level.
